Objective

I am a current student of Vanderbilt University's Full Stack Coding Bootcamp. I will be a certified full stack developer with a focus on MERN stack when I graduate in May 2022. As I am becoming well-versed in languages from front-end to back-end development, I do find front-end design and functionality to be where my interest lies heavily. I am currently seeking employment where my front-end knowledge and skills will be utilized.

Education

- Vanderbilt University's Full Stack Coding Bootcamp, Nashville, TN
- MERN Full Stack Certification | May 25, 2022
- 3.4 GPA
